

Increase Your Profitability

You need to control your inventory costs and the strain they place on your working capital. Why not have a trusted wholesale partner help you? A partner that specializes in receiving, storing and shipping thousands of products every day in its warehouses. A partner whose size bestows economies of scale that few companies can attain. A partner that passes on savings from those economies of scale, plus its expertise, to its customers. A partner like Jan-Mar.

Imagine the possibilities.

You fulfill your customers' demands without tying up working capital in inventory. You do away with non-productive, high-cube, low-money-contribution inventory. You improve fulfillment rates and turnover and we become your “**virtual warehouse**“. You handle invoicing and receivables while Jan-Mar takes care of all your inventory-related concerns.

Let's think of the product cost as just the tip of the iceberg...

Let Jan-Mar be your virtual warehouse, your route to operational savings. Call us today for all your janitorial/sanitation, packaging and safety product needs.
