

Invest In Growth

Free Up Working Capital

Jan-Mar does more than help you grow the selection of products you can offer to your customers. We also help you liberate working capital from inventory, capital that you can use to grow your company and improve its profitability.

Captive capital takes many forms, from the funds tied up in inventory to obsolete product to the warehouse space you rent to stock products. Jan-Mar helps you loosen such financial shackles so you can put your capital to better use.

Call us today for all your janitorial/sanitation, packaging and safety product needs.
